

Transportation & Logistic

The location of Huangpu District is in proximity to (1) **five international airports**, (2) **three of the global Top 10 container harbors**, (3) **China's largest high speed railway station**, and (4) **South China's largest railway container handling center**.

From the five international airports close by there are **direct flights to basically every airport in the world**.

With China Southern Airways providing the most international connections of all Chinese airlines and Guangzhou (Huangpu) Harbor being the offspring of the "maritime Silkroad" since more than 2,000 years, every company can benefit from one of Asia's most extensive and experienced logistics and customs systems – **at the very center of the world's largest free trade zone (RCEP)**.
